

Birthday Celebrations

Birthday celebrations are a wonderful way to celebrate individual children at Overfield. Parents are welcome to provide a birthday snack and join their child at school on the day of his/her birthday celebration.

The gift of a birthday book to Overfield is an appropriate and lasting remembrance of the child's birthday. The book can be read to the class on the birthday, which can be a delightful celebration in itself. A bookplate with the child's picture, name, and birth date is placed in each birthday book. The children delight in seeing current and past students' photos and names in our Library books. Refer to the **Birthday Book Program** sheet which can be found in the Office as well as in your Registration folder for more information.

Overfield provides nutritious snacks, and we ask you to please do the same for your child's birthday snack. Our license requires that snacks be in their original packaging. We may not serve homemade items. Whole fruits or commercially prepared, packaged food in factory sealed containers are acceptable.

These suggestions can help your child feel special while keeping us in full compliance with our licensing regulations.

Please communicate directly with your child's teacher(s) verbally or via email regarding how and when you would like to celebrate your child's special day.
